

VUTEQ INDUSTRIES, RAMOS ARIZPE, MEX

For Vuteq Industries, an automotive trading company we have implemented a complete replacement of the logistics warehouse lighting during continuous operation and without interruption. New modern LED luminaires have been newly installed on the center of shelf aisles, storage areas and offices. Each lighting fixture is individually switched by a combined Daylight and motion sensor to maximize energy savings.

The luminaires were installed by reusing of existing electrical installation system, which was adapted according to the new warehouse layout. Also warehouse operator's workplaces were individually illuminated. Thanks to the combination of new modern LED energy saving luminaires switched by combined Daylight and motion sensor, the customer has achieved energy savings up to 77%.

	Original installation	ARGIA lighting solution
Type of luminary	T5 6x54	ARGIA GE Current
Number of luminaires	327 pcs	336 pcs
Total Input	121.64 kW	58.65 kW
Consumption kWh/year	1,065,601 kWh	256,400 kWh

Customer's total operating costs reduced by 77% while significant improvement of the illumination level.
