## METALWORK & STAMPING, SALTILLO AND MTY, MEX

For the company Metalwork & Stamping, We realized the replacement of obsolete industrial and office lighting. The new modern LED luminaires are equipped with combined motion and luminance sensors that control each luminaire separately. Lighting was delivered within the project "Light as a Service". It is a lease of a lighting system for 5 years, where we guarantee a minimum level of lighting, guarantee

of electricity consumption and On-Site 24/7 service and maintenance. Thanks to GE CURRENT luminaires connected to the existing GREENGATE CONTROL system and Daylight sensors, customer saves up to 64% on operating costs.

	Original installation	<b>ARGIA lighting solution</b>
<b>Type of luminary</b>	Additive luminaires 1,000 W	<b>ARGIA GE Current</b>
<b>Number of luminaires</b>	644 pcs	<b>1,042 pcs</b>
<b>Total Input</b>	702.65 kW	<b>259.65 kW</b>
<b>Consumption kWh/year</b>	4,103,476 kWh	<b>1,490,524 kWh</b>

Customer's total operating costs reduced by 64% while significant improvement of the illumination level.
