

64%

ADIENT, ROUDNICE N. L, CZE

For car seats manufacturer, ADIENT Czech Republic, we have implemented another phase of replacement of fluorescent lamps in the production hall for new modern LED luminaires. The installation was carried out in parts during a shift change in continuous operation. DALI luminaires are controlled by luminance sensors and are connected to the CANALIS support and supply system. The delivery also included emergency escape

luminaires, pictograms and asymmetrical luminaires connected to the existing emergency system including new fire-resistant routes. Everything was delivered on time, in perfect quality and fully in accordance with the customer's specifications. The customer's total operating costs were reduced by 64% at a high light level of 500 lux.

	Original installation	ARGIA lighting solution
Type of luminary	Fluorescent luminaires T5	INDUSTRY LINE AL DALI
Number of luminaires	311 units	385 units
Total Input	23,64 kW	17,76 kW
Consumption kWh/year	98 326 kWh	35 453 kWh

Customer's total operating costs were reduced by 76% thanks to the installation of energy savings DALI LED luminaires and their control by luminance sensors.
