ARZIA SOLAR

INSTALLED CAPACITY: **30** kWp

ANNUAL PRODUCTION: **46** MWh

CO₂ SAVINGS: **23** Ton / Year

PV installed capacity	30 kWp
Number of panels	55 pcs
Type of panel	Trina Monocrystalin
Number of inverters	2 pcs
Type of inverter	Fronius SYMO
Solar panels warranty	12 years
Energy efficiency guarantee	25 years
ROI	2.3 years

For our major customer - Prologis, the largest industrial real estate company in the world. We delivered roof a photovoltaic solution located on the entrance gate. Energy from the new 30 kWp solar system will be used to reduce energy costs around park common areas. The solution also includes a structure supporting solar panels in order to create a shaded resting area. This is a great example how to take an advantage of the empty roof space.
